Ok thanks --I am pushing the compound idea so we hopefully don't need a large amount of overtime.

If we have to leave the scale open overnight. I agree we need two sheriffs

No we don't have room for everything inside. We have MOCs inside at Leduc as well. Yes, he wants us basically guarding the equipment overnight. I have suggested a couple of fenced compounds as an alternative which are more "out of sight" locations and probably don't need a guard.

No sure what Peter is asking for. Does he want sheriff to guard the equipment overnight? Is there room in the inspection garage to store this equipment overnight?

This ask would incur some overtime. Today most are deployed to the Leg so night shift for this would definitely be O/T. Should be 2 so we have a POD?

Good morning Farooq,

Paddy Fitzhenry and myself will be running around purchasing tow trucks today. I know weird times. In any event, as we purchase them, we will have the vendors deliver them to the Leduc weigh station as a temporary marshalling area. Eventually, all the equipment we buy will have to make its way south to another more operational marshalling areas and be ready to go when needed by the RCMP. So I have two lastminute ask (sorry)...

Can we have a sheriff presence at the Leduc weigh station? My fear is, is that if truckers become aware of what we are up to, they may attempt to impede or block our equipment.

Next item, do you have any resources who can find a southern marshalling area? Maybe something in Lethbridge? I need a compound that can accommodate:

- A tire service truck with spare 22,5 tires
- A service truck with mechanic and capabilities to do repairs on vehicles
- 2 x Semi trucks with trailers (scissor necks, landail, double drop) possible a winch truck
- 2 x Semi tractor units (to pull trailers)
- 2 x Heavy tandem 30-50 ton wreckers
- 2 x Medium flat deck tow trucks

- 4 x Light duty tow trucks (F550 type trucks)

Rob – to assist Chief Farooq, can you check with RCMP first and see if they have any preference where we put these items down south?

Happy Saturday all!

Peter
